

**T50**

A high standard operative chair!

---

**GUIALMI**

# T50

## KEY FACTORS:

**BACKREST IN MESH** of high durability and still providing an impressive smoothness in contact with the backrest. It also allows the efficient release of the body heat, reducing possibility of transpiration.

**SYNCHRONIZED TILTING MECHANISM**, perfect synchronization between seat and back, complemented with an adjustable tension regulator for the backrest.

**CHASSI** in aluminum injected. A true work of engineering, which supports all functional performance of the chair, ensures ergonomic stability and superior durability.

**STAR BASE** made of injected polyamide. With an internal structure in "Truss" ensuring an even greater resistance.

# T50

OPTIONS, AN ESSENCIAL  
MATTER!

## **ADJUSTABLE HEAD REST**

in height and angle, contributing for a perfect support for the neck of the user. Made of synthetic leather (cleaning).

**ADJUSTABLE ARMS**, in height, depth and pivots (angle). Ideal for achieving a correct posture at work.

**LUMBAR SUPPORT**, with adjustable height and tension. For a more perfect adjustment to the posture of the user.

**ADJUSTABLE SEAT PLATE**, in depth and slope. Provides a perfect setting between back and legs as well as the possibility of creating a lift that is ideal for those who spend many hours on the computer.

# T50

## QUESTION OF DETAILS!

2. Ergonomic profile of the backrest.
3. Adjustable arms (Height).
4. Adjustable arms (Depth and Pivot).
5. Lumbar support.
6. Synchronized tilting mechanism
7. Multi-limited tilting mechanism (Able to set recline angle)
8. Lever for height adjustment (gas)
9. Adjustable slope of seat plate.
10. Adjustable depth of seat plate.
11. Change of seat cover.
12. Height adjustable pneumatic cylinder.
13. Polyurethane casters.
14. Fabric type D.
16. Auto-return pneumatic cylinder (Height / Rotation) for meeting chairs.
